

Nº	Group Leader	E-mail	Research Group Name	Topics of interest
1	Prof. Aquiles Assunção Camelier	aquilescamelier@bahiana.edu.br	Respiratory diseases: Evaluation of Epidemiology and Prevention, Pathophysiology, Diagnosis, Semiology, Therapy and Quality of Life.	Epidemiology of Respiratory Diseases.
2	Prof. Armênio Costa Guimarães	armenioguimaraes@bahiana.edu.br	Cardiovascular Diseases	Epidemiological, Clinical, Metabolic and Genetic Aspects of Excess Weight (PEPE); Evaluation of Cardiovascular Complications, Respiration and Audiology in Sickle Cell Disease; Cardiovascular Risk Factors: control and prevention; Markers of Cardiovascular Risk; Diagnostic Methods in Cardiovascular Diseases; Nutrition in Cardiology; Cardiovascular Therapeutics.
3	Prof. Augusto Cesar Costa Cardoso	augustocardoso@bahiana.edu.br	Study and Research Group on Nursing	Management and Work in Health; Humanism, Health and Bioethics; Public Health and Cardiovascular Diseases.
4	Prof. Luís Cláudio Lemos Correia	luis.correia@bahiana.edu.br	Acute Coronary Syndrome and Heart Failure records	Record of Chagasic Cardiopathy (RE-Chagas); Record of Chest Pain; Record of Acutely Decompensated Heart Failure (RIC); Record of Acute Coronary Syndromes (RESCA).
5	Prof. Luís Cláudio Lemos Correia	luis.correia@bahiana.edu.br	Research group for the development of evidence based medicine	Deriving scientific concepts from the study of biological phenomena, deviation from scientific integrity and impact of methodological deviation on scientific study reliability
6	Prof. Marcos Antônio Almeida Matos	marcosalmeida@bahiana.edu.br	Research group in orthopedics, traumatology and rehabilitation	Pain in the musculoskeletal system; pathophysiology and histopathology of the musculoskeletal system; Osteometabolism and associated conditions; Health Technologies
7	Prof. Sidney Carlos de Jesus Santana	scjsantana@bahiana.edu.br	Center for Studies in Human and Environmental Health	Education in Human Health; Popular education in environmental health; Epistemology and health history in Bahia; Environmental and Medical Microbiology.
8	Prof. Ubirajara de Oliveira Barroso Júnior	ubirajara@bahiana.edu.br	Urinary disorders	Neurogenic bladder; Constipation associated with urination disorders; Constipation in children with neurogenic bladder; Epidemiology of the dysfunction of the lower urinary tract in children; The importance of Electromyography in the diagnosis of bladder dysfunction in children; Psychology and DTUI; Treatment of overactive bladder in children; Treatment and epidemiology of Nocturnal Enuresis.
9	Prof. Urbino da Rocha Tunes	tunes@bahiana.edu.br	GEPI / Periodontology and Impantology Study Group	Periodontal and Peri-implant Bioengineering; Etiology, Immunopathology and Treatment of Periodontal and Peri-implant Diseases; Etiology, Diagnosis and Treatment of Halitosis; Periodontal Medicine.
10	Prof. ^a Alena Ribeiro Medrado	apmedrado@bahiana.edu.br	Oral Pathology Study Group	Study of stomatognathic system diseases; Factors modulating inflammation and tissue repair.
11	Prof. ^a Blanca Liliana Torres León	blancaliliana@bahiana.edu.br	Restorative biomaterials in Oral Rehabilitation	Bacterial adhesion; Temporomandibular Disorders; Dental materials; Prosthetic rehabilitation treatment.
12	Prof. ^a Cláudia de Carvalho Santana	ccsantana@bahiana.edu.br	The interdisciplinary group of research on education and extension in Health	Impact of intercourse interdisciplinary actions developed in the Candéal Program, Interdisciplinarity and healthcare actions; Active learning methodologies from the interdisciplinary perspective; New Technologies for Youth and Adolescent Health Promotion.
13	Prof. ^a Constança Margarida Sampaio Cruz	constancacruz@bahiana.edu.br	Kidney Failure and Cardiovascular Disease	Cardiovascular and Renal disease; Cardiovascular Risk Factors in Chronic Kidney Failure; Prognostic factors in Acute Kidney Failure.

14	Prof. ^a Cristiane Maria Carvalho Costa Dias	cmccdias@bahiana.edu.br	Research Group on Cardiovascular and Respiratory Physiotherapy of Bahia (GePFIR)	The Effect of Insole Postural Reprogramming on Blood Pressure Control, posture and quality of life; Endocrine-metabolic physiology and exercise; Cardiovascular and Respiratory Therapy; Cardiovascular and Respiratory Therapy in Neonatology; Therapeutic modalities in Cardiovascular and Respiratory Physical Therapy; Quality of Life After Cardiac Rehabilitation; Post Operative Cardiac Rehabilitation during the Hospitalization Phase; Phase 1 Cardiac rehabilitation in intensive care; Smoking.
15	Prof. ^a Katia Nunes Sá	katia.sa@bahiana.edu.br	Dynamics of the neuromusculoskeletal system	Clinical Biomechanics; Behavior and Motor Learning; Scientific Communication in Health Sciences; Degeneration and regeneration of the nervous system; Elaboration and validation of data collection instruments; Exercise Physiology and Prescription; Physical therapy, pain, education and impact on quality of life.
16	Paulo Cirino de Carvalho Filho	paulofilho@bahiana.edu.br	Center for Studies in Basic Sciences Applied to Dentistry	Evaluation of biochemical and immunological parameters in patients with oral pathologies; systemic diseases and related oral manifestations.
17	Prof. ^a Maria Fernanda Rios Grassi	fernanda.grassi@bahiana.edu.br	Retroviruses and Associated Infectious Diseases	Neurological diseases and retroviruses ; Human Retroviruses (HIV and HTLV) and Immunomodulation; Prevalence of human retroviruses and associated diseases.
18	Prof. ^a Marilda Castelar	marildacastelar@bahiana.edu.br	Psychology, Diversity, and Health	"Memory, Culture and Subjectivity; Education and Employment of healthcare professionals; Interdisciplinary laboratory: Care and Mental Health - LICs."
19	Prof. ^a Marta Silva Menezes	martamenezes@bahiana.edu.br	Pro-teaching in Health	Teaching and professional development; Teaching methodologies in healthcare courses; Health technology research.
20	Prof. ^a Milena Pereira Pondé	milenaponde@bahiana.edu.br	Interdisciplinary Laboratory for Research in Autism	Comorbidities in autism; ASD Feeding Behavior; Epidemiology; Autism phenotypes ; Assessment tools; Emic perceptions of ASD; Psychic suffering in parents of children with ASD; Treatment.
21	Prof. ^a Patrícia Virgínia Silva Lordêlo Garboggini	patricialordelo@bahiana.edu.br	Care Center for the Pelvic Floor - CAAP	Anorectal pelvic floor; Physical Therapy Application in Gynecology and Obstetric Functions; General aspects of women's health and offspring; Women's Genitalia; Psychology and Health; Radio frequency.
22	Prof. Amancio José de Souza	amanciosouza@bahiana.edu.br	Experimental research group on human health	Nitric oxide synthase polymorphisms and prognosis in sickle cell disease; Pharmacological activities of natural and synthetic products; Impact evaluation of educational technologies in health education; Fatty acid profiling of biological samples; Therapy development for chronic degenerative diseases; Metabolomics of sickle cell disease; Biomolecule prospecting with anti-parasitic and immunomodulatory properties
23	Prof. Clarcson Plácido Conceição dos Santos	clarcson@bahiana.edu.br	Study and research group on human health and performance	Muscular and metabolic adaptation in response to physical exercise; Physical activity, health and quality of life; Autonomic modulation and physical exercise.
24	Prof. ^a Elen Beatriz Carneiro Pinto	elen@bahiana.edu.br	Motor behavior and neurofunctional rehabilitation	Impact of Parkinson disease and other forms of Parkinsonism in quality of life; Impact of demyelinating diseases in functionality and quality of life; Impact of cerebral vascular accidents and aging in functionality and quality of life.
25	Prof. ^a Carolina Villa Nova Aguiar	carolinaaguiar@bahiana.edu.br	Study Centre for psychosocial processes and work	Diagnostic tools and intervention in work organizational psychology; Individual, work and psychosocial processes
26	Prof. Gustavo Marcelino Siquara	gustavosiquara@bahiana.edu.br	Neuroscience, emotion, cognition and behavior	Neurosciences; Therapies: cognitive and behavioral
27	Prof. João Franco Lima	joalima@bahiana.edu.br	Study group on history, physical education, leisure and health	History of physical education, sports and leisure; Life history and professional development in the health sector
28	Prof. Jorge Clarcencio Souza Andrade	jcsandrade@bahiana.edu.br	Technology and innovation group on bio morphology and bio interaction	Evaluation of public policies directed toward control of neglected diseases; Didactic games in bio morphology and biointeraction; Computational models applied to the health sector
29	Prof. ^a Martha Moreira Cavalcante Castro	mmccastro@bahiana.edu.br	Chronicity and illness: a interdisciplinary comprehension	Chronic illness and life quality repercussions; interdisciplinary perception of care in chronic diseases and in palliative care
30	Prof. ^a Milena Bastos Brito	milena Brito@bahiana.edu.br	Study group on reproduction, obstetrics and neonatal health	Abortion - epidemiology and post-abortion care; Prenatal care; Contraception; Endocrine pathologies during pregnancy
31	Prof. ^a Patrícia Aparecida da Silva Valadão	patriciavaladao@bahiana.edu.br	Study and research Centre on ethics and bioethics	Research in medical professionalism; Quality of life in health and work; Ethics and bioethics in research, health, environment and work
